# LANGLEY ROADRIDERS

## 2026 Event & Ride Schedule

Originally formed in the 1980's as a small group of riders the Langley RoadRiders now number over 50 members and are one of BC's longest actively engaged motorcycle clubs!

We are a friendly group of motorcyclists of all ages and owners of many different types of motorcycles. We ride twice a week for no particular reason except for the love of riding and being with good company. Most long weekends we organize are three-day rides or longer.

Welcome to this year's riding season, the Event & Riding Schedule below is a result of members volunteering their time to assemble a mix of rides that include local routes, rides that tour the beauty of British Columbia and neighbouring Washington State; Our volunteer ride committee has made every effort to plan a ride schedule that has at least something for everyone.

We welcome visitors who want to come check us out but Club events like BBQ's and the Christmas party are reserved for members of Langley RoadRiders only.

The rides are led by volunteers, we strive to have a ride leader and a tail gunner for each ride, please consider taking on leading one of the unassigned rides in the schedule below or suggest a ride of your own that you'd like to share with us.

## 2026 Event & Ride Schedule

## Ride Guidelines (2026-03-10)

1. By riding with the Langley RoadRiders you agree to the following ride guidelines.
2. You are responsible for your own safety; follow all rules and laws of the road including having valid motorcycle insurance and motorcycle drivers' licence, abiding by the conditions and restrictions of that licence.
3. If the person in front of you is riding too fast, "Ride your own ride" you don't need to keep up, but you may want to move to the back of the group.
4. Ride at a safe distance behind the rider in front of you (at least a 2 second interval), but not an unreasonable long distance behind. This causes the group to be spread out too far and possibly split up.
5. Riding in a staggered formation is the accepted practice. (Ref: ICBC RoadSense for Riders, pg. 105).
6. In slow moving traffic ride in staggered position reasonably close together, (i.e. in city traffic) so the group can stay together.
7. At stop signs and red lights stop and put at least one foot on the ground **(do not run stop signs and red lights).**
8. When we start out, take notice of who is in front of you, stay in this position for the whole ride. If you are not comfortable in this position, let others know you are changing your position.
9. When entering a curve, proceed in single file through the curve, and increase space between you and the bike in front of you.
10. When changing lane position, signal with a hand or foot, but not your turn signals, others may think you are changing lanes or turning.
11. Stay within the bounds of your skill level. If you feel uncomfortable, you are outside your skill level and should slow down. New or Novice riders are encouraged to ride at the rear of the group in front of the tail gunner.
12. If a bike pulls onto the shoulder, **don't follow him**. The tail gunner will stop and help; only when the ride leader pulls over does the group pull over.
13. Please let the ride leader or tail gunner know if you plan to leave the ride early, if you decide to leave during the ride, pull over and wave the following group by and communicate with the tail gunner you are leaving
14. If you lose the person behind you and the group ahead turns, pull over in a safe and visible place. Proceed once the person/group catches up. You won't get lost! If the group turns again, someone will be waiting for you.
15. Follow the bike in front **ONLY** when safe to do so. If the bike in front passes, you don't need to, you pass when you feel it is safe. Same for turns and stops.

**Have a Great Safe Ride!**
